Plone

Welcome to Plone

creato da admin — ultima modifica 06/11/2008 00:58

Congratulations! You have successfully installed Plone.

Disponibile anche in modalità presentazione...

If you're seeing this instead of the web site you were expecting, the owner of this web site has just installed Plone. Do not contact the Plone Team or the Plone mailing lists about this.

Get started

Before you start exploring your newly created Plone site, please do the following:

1. Make sure you are logged in as an admin/manager user. (You should see a Site Setup link in the top right corner)
2. Set up your mail server. (Plone needs a valid SMTP server to verify users and send out password reminders)
3. Decide what security level you want on your site. (Who can join, password policies, etc)

Get comfortable

After that, we suggest you do one or more of the following:

- Find out What's new in Plone 3.0.
- Read the documentation, especially the What documentation should I read and Server setup recommendations.
- Explore the available add-on products for Plone.
- Read and/or subscribe to the support forums.

Make it your own

Plone has a lot of different settings that can be used to make it do what you want it to. Some examples:

- Try out a different theme, either pick from the included ones, or one of the available themes from plone.org. (Make sure the theme is compatible with the version of Plone you are currently using)
- Decide what kind of workflow you want in your site. (The default is a website-centric workflow, if you want to use Plone as a closed intranet, you should adjust your workflow settings accordingly)
- By default, Plone uses a visual editor for content. (If you prefer text-based syntax and/or wiki syntax, you can change this in the markup control panel)
- ...and many more settings are available in the Site Setup.

Tell us how you use it

Are you doing something interesting with Plone? Big site deployments, interesting use cases? Do you have a company that delivers Plone-based solutions?

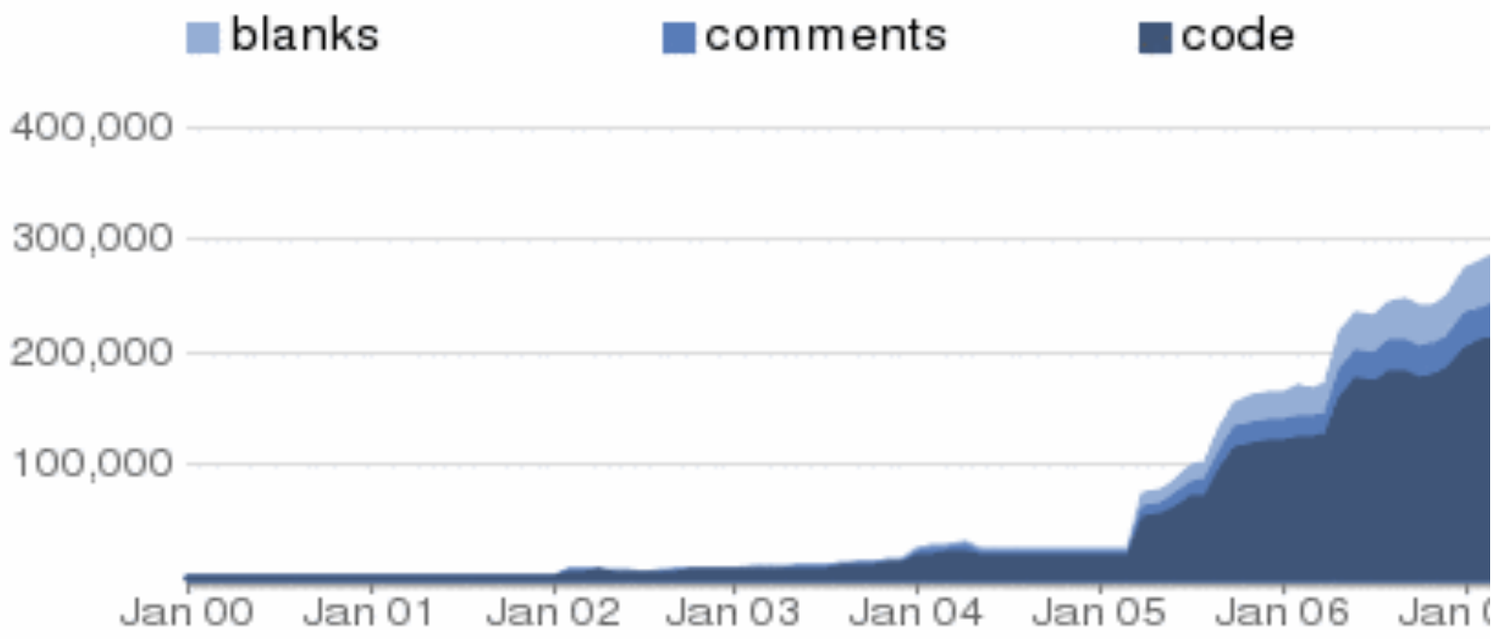
Built on Zope

Plone

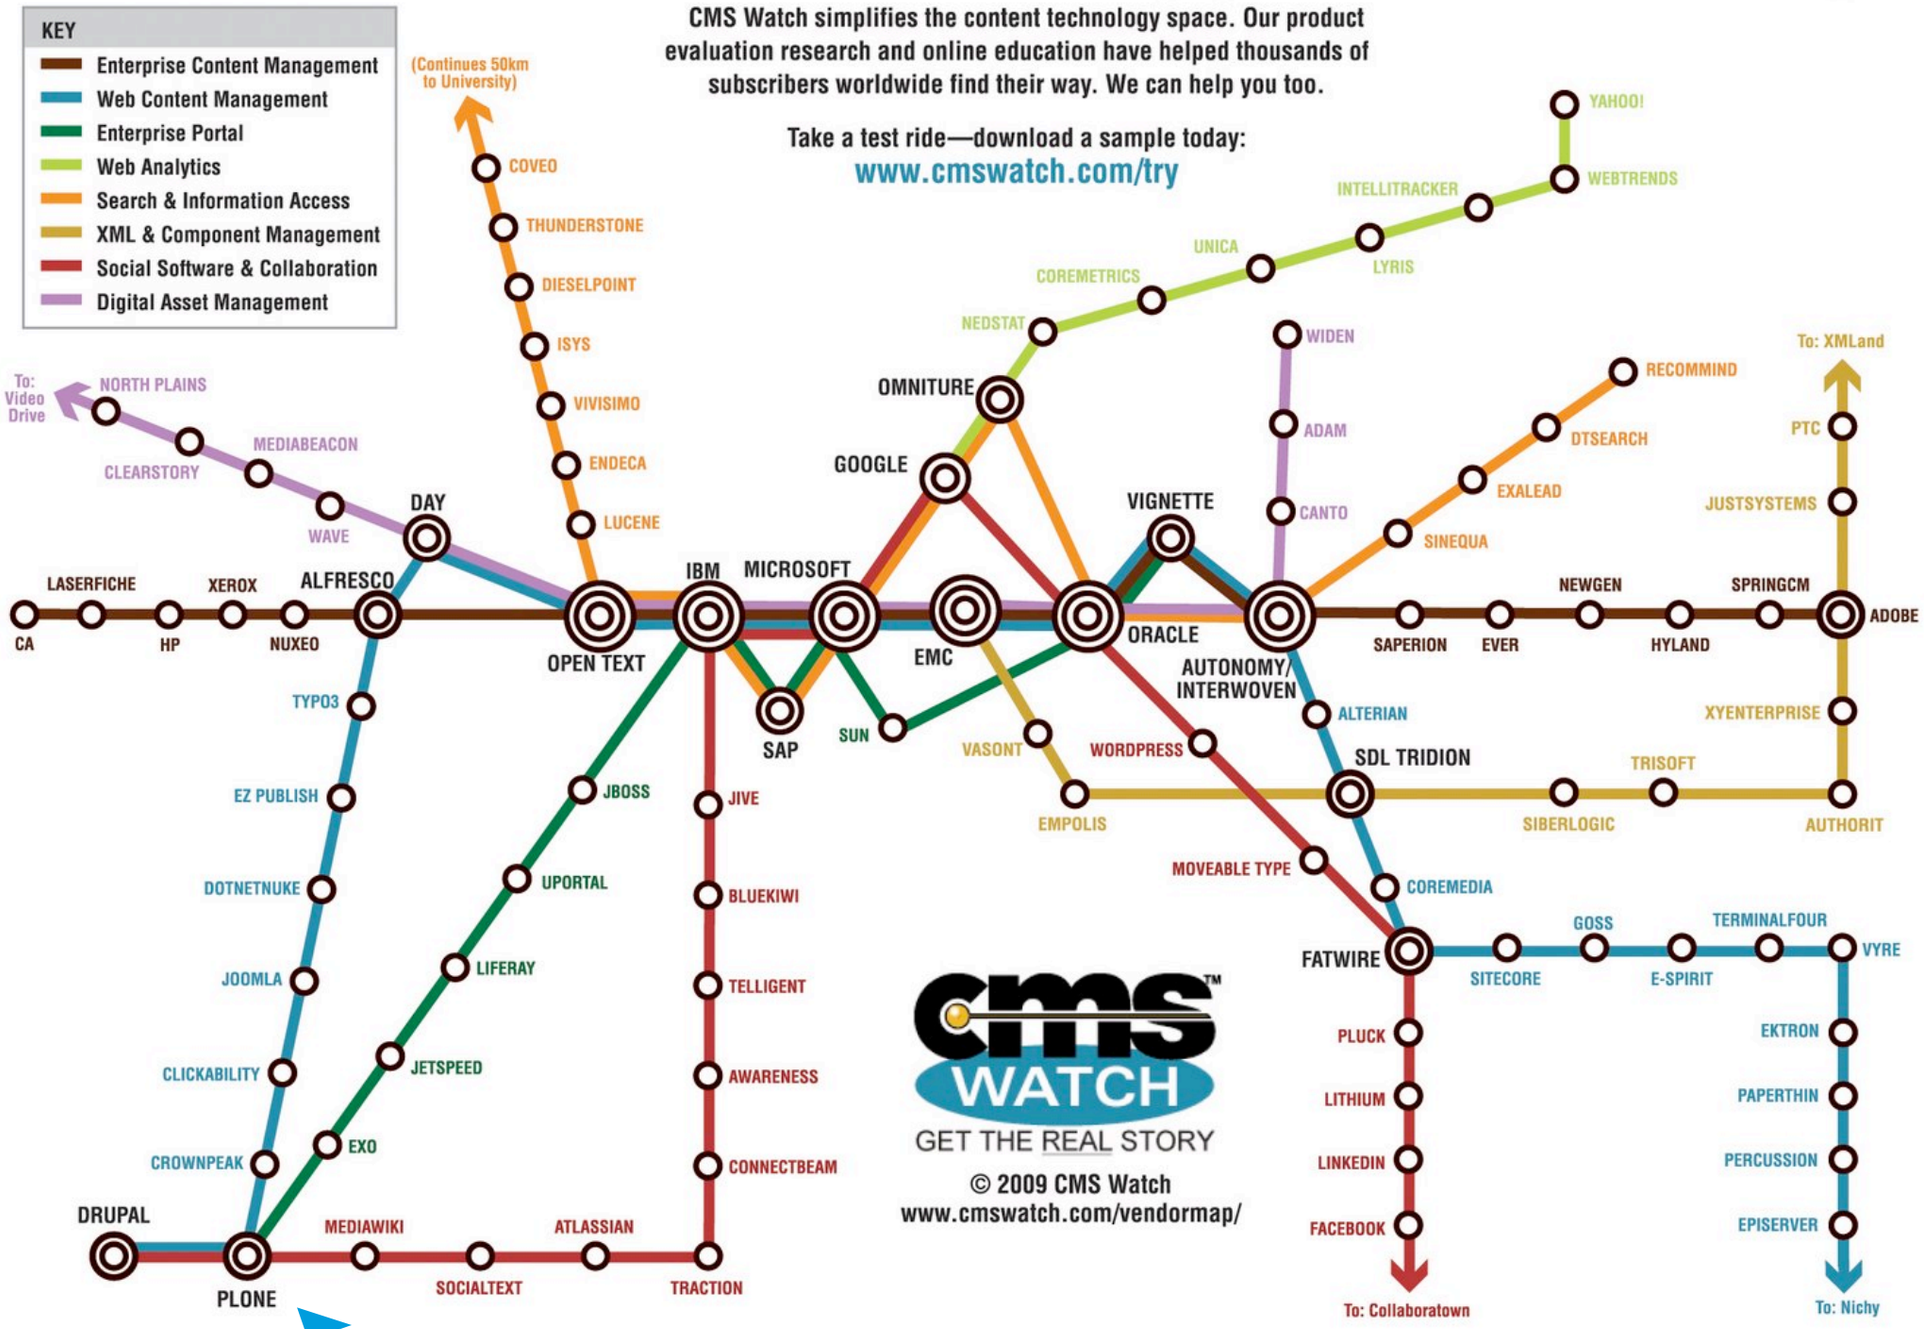
Little bits of history

- Initiated in 1999 by Alexander Limi, Alan Runyan and Vidar Andersen.
- First release in 2001, Plone 1.0 out in 2002
- Plone 2 release in 2005
- Plone 3 released in 2007



Plone

2009 Content Technology Vendor Map



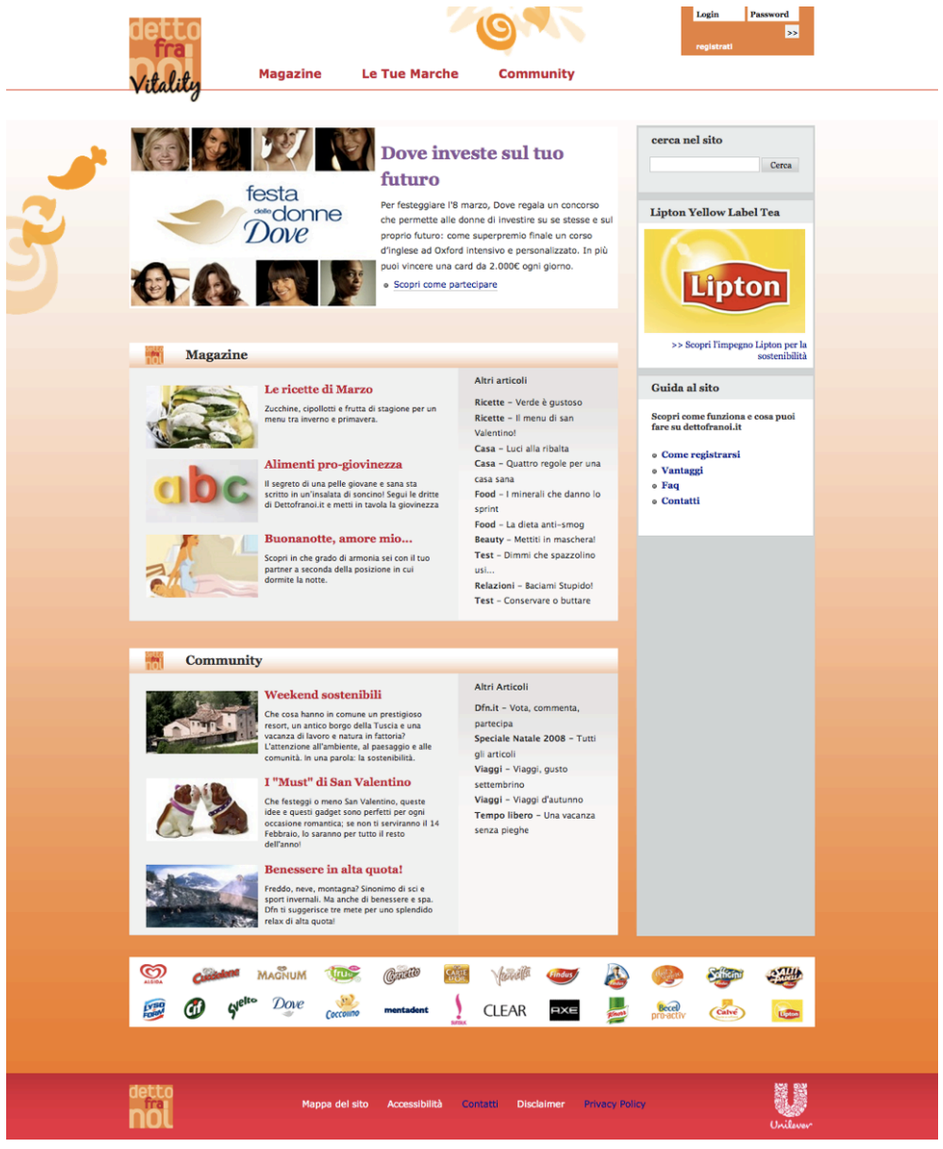
Positioning

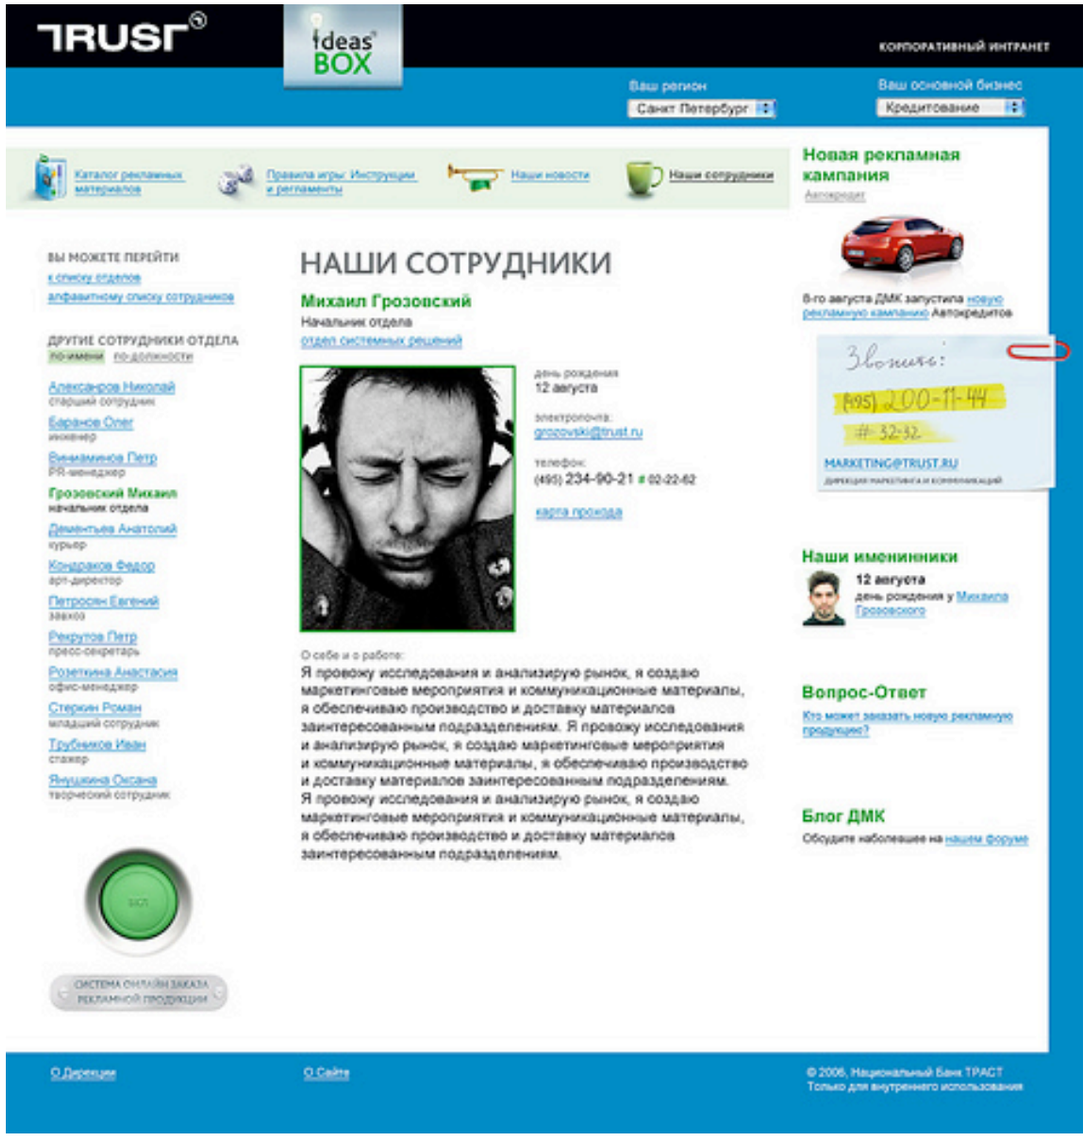
Plone

Web Publishing

- Portlet management
- Collections (Topic, Smart Folders)
- Audio and Video
- Views
- Workflow
- Custom visual design

Plone





Visual Design Flexibility

Plone

Collaboration

- Sharing/Locking/etc.
- Forums, Blogs, Wiki and other "commodities"
- Workspaces
- (Open Plans)

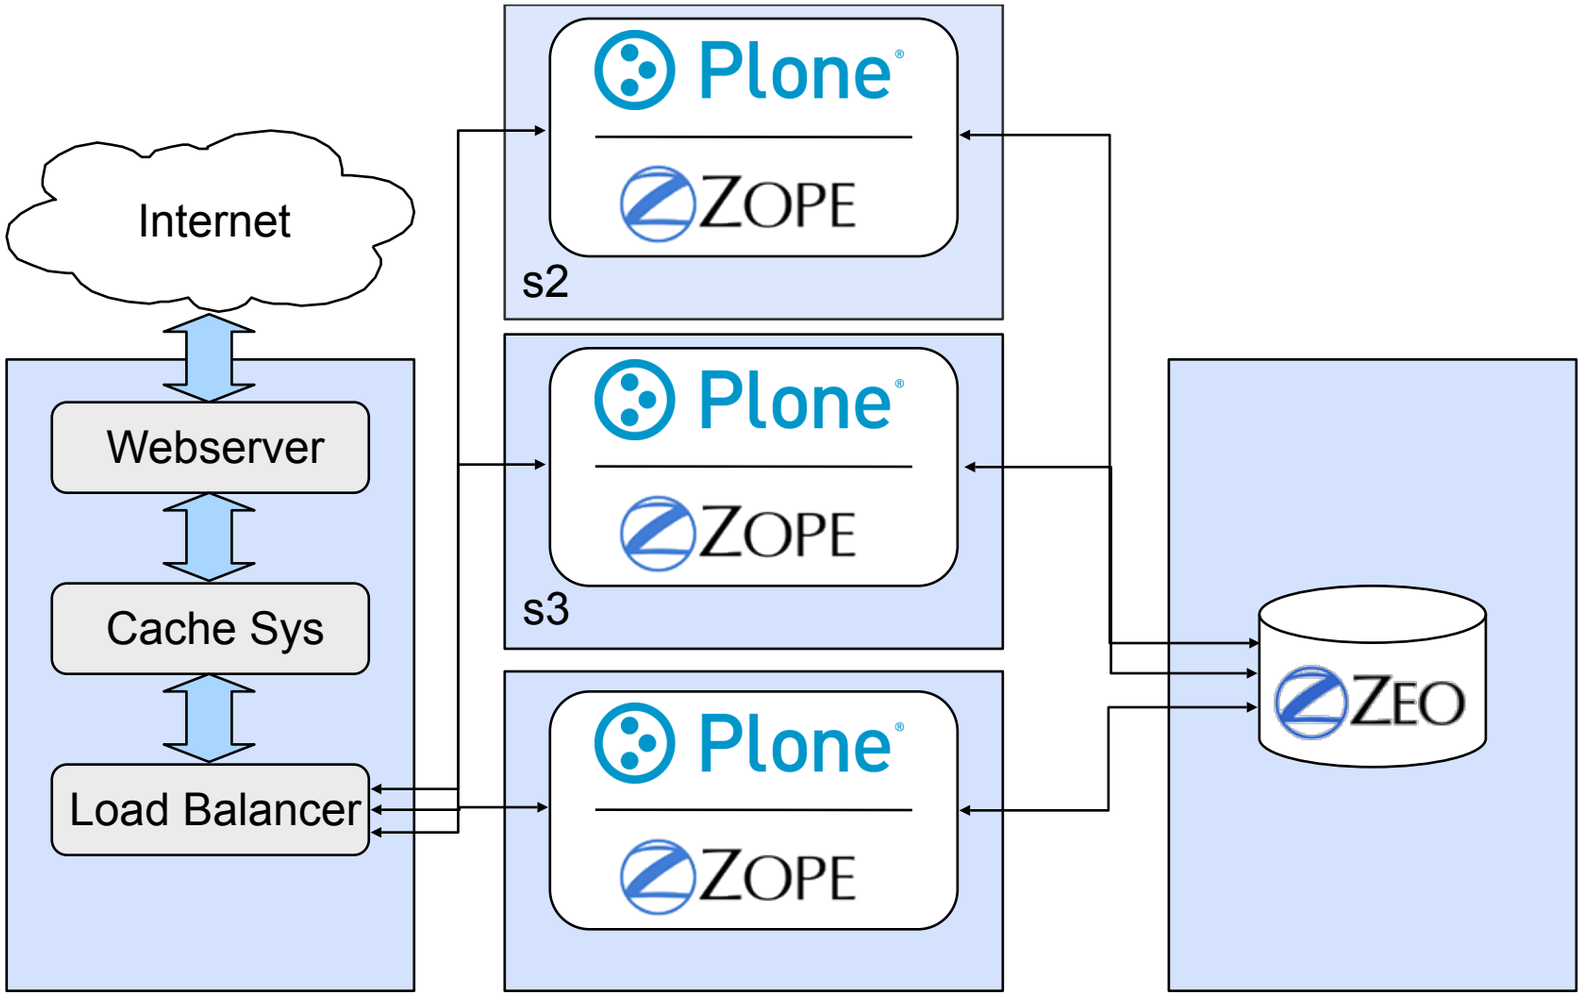
Plone

Enterprise

- Authentication
- Reliability
- Scalability
- Integration
- Import/Export
- ...

Plone

Deployment



Plone

Why is different?

- Written in Python
- No relational DB
- Really opensource
- Whole ecosystem
- Focus on UI
- In-place (and placeful)

Plone

Strengths & Weaknesses

- Easy to use
- Security
- Reliability
- Sw architecture
- Python
- Power & Flexibility

- Marketing
- Lack of developers
- Depending on Zope
- Learning curve for developers
- Limited JS/Ajax goodies

Plone

(and more)

- Roles, workflow and content rules
- Document Management (versioning)
- Search (default / Solr / GSA)
- Forms (PloneFormGen)
- Simple Tracking System (trouble ticket)

Plone for public sites

Welcome to the UN System Chief Executives Board for Coordination

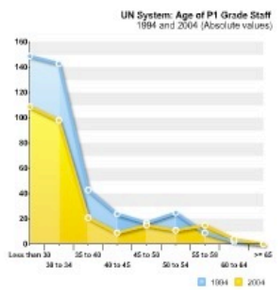
System-wide Coherence -

Delivering as One - Report of the High-level Panel on United Nations System-wide Coherence in the areas of development, humanitarian assistance and the environment (A/61/583)

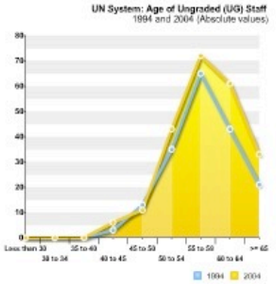
The Millennium Declaration and the UN system

The organizations of the UN system stand together poised to adapt and intensify their efforts, with the support of Member States, and on behalf of them and their peoples, to bring the vision of the Millennium Declaration to life. More...

UN System HR Statistics



Every year, CEB Secretariat collects data on the staff of the organizations of the UN System. A total of 36 tables provide information on many aspects of the UN System's staffing profile, such as category, grade, gender, nationality, age, length of service and duty station.



Comparisons with earlier data provide insights into HR trends, such as the development of gender ratios, the ageing of organizations and the proportion of professional and general service staff. More...

What is the United Nations system?

The United Nations system is made up of the organizations established by the Charter of the United Nations,

Future of Plone: roadmap

Plone

Plone 4

Expected end 2009

- TinyMCE editor
- Blobs
- New default roles
- Improved comments
- More workflow features
- New default theme

Plone

Plone 5

Expected end 2010

- New content types engine: Dexterity
- New theming: Deliverance
- More performance
- Improved search engine
- Tiles and a whole new approach to page building
